IMAGINE AN AMERICA IN WHICH a vast number of people routinely vote; where voting

is easy, accessible to all, and fair; in which campaigns know they cannot win by dividing slivers of the electorate, but by energizing large numbers behind their plans and ideas.

This America is Seven Steps Away.

A Return to Common Sense presents the Brennan Center report on the most critical flaws in our current democratic process and the bold reforms that will revitalize our nation.

End Voter Registration as We Know It

Fix Electronic Voting

Increase Voter Turnout

Campaign Finance Reform

End Partisan Gerrymandering

End the Electoral College

Curb the Imperial Presidency and Fix Congress

A Return to Common Sense is a passionate call for change, a road map for restoring the vision of the Founding Fathers and renewing the great spirit of America where the people run the government and the government works for the people.
