A compact, practical and comprehensive mini dictionary, which provides full coverage of the core vocabularies of Latin and English. New Latin words have been added from the writings of Plautus and Terence, and from the study of Silver Latin. With 25,000 words and phrases, and 50,000 translations, full grammatical information about each word, and details of verb conjugations, this is an invaluable tool for those needing a quick-reference dictionary for Latin. The appendices offer additional information on historical and mythological names, geographical locations as well as a 40-page grammar guide.
