Selected from the "Woodworker's Journal", these classic tables have been chosen for their ability to serve many functions around the house. Appropriate for beginner to intermediate woodworkers, the designs include a Shaker sewing stand, a butcher

block kitchen island, a graceful cherry tea table, a trestle dining table and a coffee table. All the projects have been test built by experts and are presented with detailed instructions and colour photographs, exploded drawings, lists of required materials and complete finishing options. Helpful sidebars offer tips for selecting the right wood, saving time, and avoiding costly mistakes.
