Babies love seeing their own reflections! Look at Me! Mirror Discovery Cards are the perfect tool for teaching your baby about his body from head to toe. Babies will be captivated by the image of their face, hands, or feet in the large mylar panels on the cards, and will learn about different emotions as they imitate happy, sad, or angry faces. Baby Einstein Books is an imprint of developmentally appropriate, interactive books designed to introduce children ages 0-3 to classic poetry, art, and foreign languages in a fun and accessible way. A combination of playful images, beautiful photography, and bold illustrations with multilayered text will captivate and stimulate babies and young children. This "humanities for babies" program, based on the

award-winning video series, taps into the natural learning potential of young children--and their parents' aspirations for them.
