著者:Charles M. Francis

出版者:Princeton University Press

出版时间:2008-4

装帧:Hardcover

isbn:9780691135519

Southeast Asia is home to more than 500 mammal species. This richly illustrated field guide is the most comprehensive reference to all mammals currently known to exist in mainland Southeast Asia, including Myanmar, Thailand, Laos, Vietnam, Cambodia, peninsular Malaysia, and Singapore. Every species is covered in full, from elephants and rhinos to dolphins, monkeys, carnivores, bats, mice, and shrews. The detailed text describes key identification features, ecology, habitat, distribution, and status. Seventy-two high-quality color plates depict most of the species covered, and there are distribution maps for easy reference. Charles Francis gives practical guidance on how to find and study mammals and covers important topics such as conservation. A Guide to the Mammals of Southeast Asia is a one-of-a-kind resource for naturalists and researchers and ideal for general readers.

- The most up-to-date and complete guide to the mammals of Southeast Asia
- Generously illustrated with 72 full-color plates
- Comprehensive text aids identification
- Line drawings illustrate footprints and technical details
- Distribution maps

评论

虽然出版时间和中国那本差不多，封面设计也比较类似，不过内文就几乎是两个风格了。相较而言这一本的绘图质量要高出不少，但文字部分则不够详尽。

图片和同页比例表现较好
