A harrowing trio of murder, romance, and power propel the action forward in this story about little Jenny Waring. In a moment of dire crisis, she did something exceptional, and the authorities want to know how and why she killed three armed men like a seasoned agent. It's Kier McAllister's job to break Jenny Waring--he's asking a lot of questions, and he isn't asking nicely. However much McAllister thinks he's in control, the balance of power is shifting. Jenny's accusing eyes are starting to hold the whole world for him, and that isn't good--not when the people he works for aren't about to leave her alone. Jenny Waring started out as McAllister's job, how can she become his redemption?
