This is an extraordinary collection of essays on a hugely topical subject from a team of leading philosophers from around the world.This extraordinary book brings together the thoughts of 15 leading philosophers on one of the most important political and cultural crises of our time.Many Westerners are beginning to realize the extent to which terrorism and the Israel/Palestine conflict - and the ways in which we handle them - are likely to be determining factors in shaping the West of the future.This short and accessible book introduces the key issues from a philosophical perspective. Introduced by Stephen Law, "Israel, Palestine and Terror" presents a powerful, provocative and engaging overview. The team of contributors includes such leading figures as Noam Chomsky and Ted Honderich."Israel, Palestine and Terror" provides an indispensable guide to the key ideas and arguments surrounding what is likely to become a defining conflict of this century.
