"Trans People in Love" is a illuminating resource for members of the trans community and their partners and families; gay, lesbian, bisexual, queer, and intersex people; sexologists; sex therapists; counselors; psychologists; psychotherapists; social workers; psychiatrists; medical doctors; educators; students; and couples and family therapists. "Trans People in Love" provides a forum for the experience of being in love and in relationships with significant others for members of the trans community. This honest and respectful volume tells clinicians, scholars, and trans people themselves of the beauty and complexity that trans identity brings to a romantic relationship, what skills and mindsets are needed to forge positive relationships, and demonstrates the reality that trans people in all stages of transition can create stable and loving relationships that are both physically and emotionally fulfilling.
