Aaron Rogell is a brilliant San Francisco scientist with a nanotech start-up, a beautiful wife, and a brand new baby. But Aaron has an ugly little problem: he just can't keep it in his pants. And since his wife got pregnant, his problem has gotten worse. Now he spends his quality time with an upscale call girl named Aphrodite, a toothless street hooker, and some even less presentable companions. Once one of Aphrodite's lowlife acquaintances - the fearsome Pablo Clench - learns that her new boyfriend has invented a miraculous technology that may be worth fabulous sums, he goes to work. His plan: to infiltrate Aaron's company, get the secret of his invention and sell it for cash to the highest bidder. But things don't go as anyone had planned, and Pablo, Aphrodite, Aaron and just about everyone they know ends up with lots of tiny little troubles.
