The easy-to-follow symptom charts and the descriptions of common childhood problems, written in jargon-free language, help parents figure out what might be wrong with their child, how urgent it might be, and what they can do to make their child feel better, providing reassurance and support. Filled with practical advice on what parents can safely do at home to relieve their child's symptoms and aid recovery, this book will help them decide whether it is necessary to consult a doctor. AUTHOR BIO: Dr. Bernard Valman has been a pediatrician in London for over 35 years. After obtaining his medical degree from Cambridge University, he started at the Great Ormond Street Hospital for Sick Children.
