isbn:9780757002366

The Irlen Revolution begins with an overview of learning disabilities. Followed by a look at the various standard treatments used to help the learning disabled. The book then examines the irlen Method, and present the scientific basis of the program. Finally, the author discusses the the individual disabilities that prevent norman learning, what they, and how the Irlen approach may be used to treat them successfully. Featured on 60 Minutes, Good Morning America, The Home Show, ABC Worldwide News, NBC News, BBC, and numerous other TV shows around the world.
