When God created my toes, did he make them wiggle? Did he know I'd giggle?

Did he have to hold his nose, when God created my toes?

This charming picture book allows your child to imagine what it was like when God created them. From the top of their heads to the tips of their toes they will explore and understand God's delight in creating them.

Through rhyming lines and vivid illustrations children will gain confidence and

self-esteem when they begin to fully realize how perfectly, intricately, and uniquely God created them.
