This book features expert advice on staying safe in the outdoors, from one of America's best-known survival writers. The best way to survive an extreme situation in the wilderness is to avoid it in the first place, says Rich Johnson in this refreshing new guide to outdoor survival skills. Avoiding both the rigid 'primitive skills' ideology and

macho, military/survivalist posturing, Johnson focuses on proven, easily implemented methods to handle emergency situations in an easy, low-stress manner.
