Isn't it Your Turn to Get Rich in Real Estate? This book is for the average Joe. Whether you're starting out as an investor or homeowner, you'll get the tools you need to start making money in real estate. This is not magic, merely common sense applied to the world of real estate. Stuart Rider provides you with information that most people never

come across. It's presented in an organized and effective way so that almost anyone can understand it and put it to use. It is not a get rich quick scheme; capital and hard work are required, but starting with a personal residence, most readers can accomplish their goals of financial independence in a reasonable period of time. Covers housing, land investment, income property investment, and real estate development Includes strategies for both up and down market cycles Offers priceless tips for getting into the market with minimum risk Provides references so you can research housing stats in your own area Includes a CD with customizable forms and spreadsheets including personal financial analysis, 10-year investment schedule, ROI, projections and more From maximizing the potential of a home to investing in land or income property, Rider puts you on the path to wealth. It is literally a blueprint for personal gain.
