John Krigger and Chris Dorsi help homeowners to set realistic personal goals for reducing their energy consumption. Their methods for making homes more energy efficient will also improve comfort, safety, durability, and resale value. They guide

readers through the process of assessing current energy usage and predicting the benefits and estimating the costs of remodelling options. With projects ranging from simple fixes to large-scale renovations, this book offers solutions for the energy-conscious homeowner, regardless of budget, technical ability, or time.
