Set in Daviess County, Indiana's Amish country, this continuation of "Sarah" finds Sarah now married and settled on the Yoder farm outside Whitfield. Sarah's sister has plans for a trip out West, agreeing with Sarah that the cut on James' arm that seems slow in healing is nothing serious. Esther has a premonition of things to come, but does even she know what really is coming? Be with Sarah when she receives heart-breaking news in Colorado, and when she learns of the Amish school shootings in Nickels Mine, Pennsylvania. This is a story that brings together an enticing mix of conflicts: divine healing, the powwowing practices of the Amish, the internal workings of Amish culture as it deals with problems, and one person's personal faith when facing terrorism.
