Packed with great ideas for giving money as a gift, this book shows how to fold banknotes into a fantastic range of shapes including cars, fans, flowers, hats, parasols, lanterns, monsters and frames. A step-by-step techniques section explains all the folds, then twenty one simple projects illustrate how to create beautiful cards, boxes, money envelopes, three dimensional pieces and fun pictures, using the folded shapes as embellishments and toppers. If you are seeking something different look no further. The ideas in this book will appeal to crafters, artists and anyone who wants to give a unique gift to someone special. There is something for everyone and designs for every occasion.
