They are Microserfs--six code-crunching computer whizzes who spend upward of sixteen hours a day "coding" and eating "flat" foods (food which, like Kraft singles, can be passed underneath closed doors) as they fearfully scan company e-mail to learn whether the great Bill is going to "flame" one of them. But now there's a chance to become innovators instead of cogs in the gargantuan Microsoft machine. The intrepid Microserfs are striking out on their own--living together in a shared digital flophouse as they desperately try to cultivate well-rounded lives and find love amid the dislocated, subhuman whirl and buzz of their computer-driven world.

书评

貌似就我一人评了唉。。 据说这本书属于死前一定要读的100本书之一。
可是如果不是找到了Matthew的有声版，我才懒得看呢。。
