isbn:9789020974799

Beautiful, eye-catching photography by Jan Verlinde link the past with the present in this stunning book. The noblest of building traditions are bonded with a modern way of living, working and relaxing. Lifestyle author Ivo Pauwels, in his familiar, fascinating style, takes the reader back to the past. He brings the memories of the centuries-old building techniques and the forgotten knowledge of the materials used in roof trusses, tiles and thatched roofs. This title features text in English, French, German and Dutch.
