"Naughty Secretary Club" features over 30 step-by-step kitschy-secretary jewellery projects, plus 20+ variations. Readers will learn how to turn almost anything into a charm (think plastic gnome cake toppers in the Whistle at Work Necklace, or plastic doll furniture for the Secretary's Pad Jewellery). They'll be encouraged to look at their office supplies in a whole new way (who knew paperclips could make such a great necklace or that file folders can be turned into wearable art?). Projects are rated by skill level - if you're a complete rookie, start with a First Day on the Job project. Think you're management material? Go for a You Deserve a Raise or Executive Administrative Assistant project. Throughout the book, readers will be entertained with quirky

sidebars.
