Review

One of the most historic cities in Central Asia, Kashgar certainly merits a fine picture book. The city is crammed with photogenic subjects: the Uighur people, their dress, food, donkey carts, houses, mosques and cemeteries. John Gollings has done them justice. --Steppe

## Product Description

In the 19th century, the Silk Road city of Kashgar played a central role in the strategic rivalry between Britain and Russia. Today it remains one of the most complete historical urban centers in China, and its celebrated Sunday market is one of the most vibrant in central Asia. This book honors Kashgar's extraordinary history and character in stunning color photographs that are accompanied by informative text.
