Bram Stone and the other young teens he has recruited to join the BRIMSTONE NETWORK are still learning about their powers. When the telekinetic Dez gets angry, there's little that can stop the damage. Emily can barely control the wolf inside, and after her parents finally discover her secret, she isn't sure she wants to. Bram himself knows he still needs to master his specter half. But the group is going to have to learn fast. Terrifying SUPERNATURAL beings continue to make their presence known on earth, including one the new network can't even imagine how to stop: Vladek, a VAMPIRE who can't be killed. As Vladek gains power, Bram and rest of his new network race to learn how to stop the vampire prince before he can fulfill his devastating agenda and plunge humanity into total darkness forever.
