isbn:9781416971252

This exciting collection of fables, folktales, and poems, collected by William J. Bennett, illustrates some of the best human values: courage, honesty, work, friendship, and loyalty. With writings by great authors -- among them Henry Wadsworth Longfellow, Anne Frank, Horatio Alger, Helen Keller, and Aesop -- these works, some old and some new, will always have great meaning for young people as they make their way through life.
