Who doesn't love hugs and kisses? Delight your child with lovable, nuzzling animals, and a heart-shaped die-cut on each page. It's all about affection in the natural world for babies, toddlers, and everyone who loves love. Inspired by the bold graphic design of the best-selling EyeLike series, Baby EyeLike opens the door to a lifetime of discovery. Each page is simple - yet dramatic - in design and detail. Die-cut pages reinforce the learning theme and allow babies and toddlers to grip and learn.
