"Ingles movil is the way to learn English as you are on the go. If you don't have time to memorize long and boring manuals, or you are always too busy and need to learn as you go, in the car or doing any other chore, Ingls mvil is the solution that goes with you. The main tool of this program is the audio; the method that you will follow is "listen and repeat" based on US pronunciation, and every-day situations. It will benefit newcomers as well as people who have been in the country for a while. In a very short amount of time, your tongue ""will loosen"" and you will be able to understand and speak fluently English and without problems. The 144 chapters on the CDs come with a complimentary book that will let you get started from the most basic until you can master the language and feel confident speaking. Contains an English/Spanish Spanish/English glossary with 2,500 commonly used words, 4 Audio CDs with 72 minutes each, a 272-page book, and 144 lessons for easy comprehension.
