Mmm...honey. Bears love it and bees work hard to make it. Indulge your taste buds with more than 75 recipes that use this golden goodness in diverse and delicious ways. You'll learn how to transform even familiar entrees, appetizers, desserts and drinks into something special. Start your day off with some Honey Pancakes and warm Cinnamon Honey Donuts and finish it with a savoury plate of Honey-Glazed Chicken Breasts or Honey Spareribs. Of course, no cookbook about honey would be complete without a whole chapter dedicated solely to desserts like Honey Berry Bake and Peaches in Honey Syrup. With every page and every recipe you will be inspired to make tasty, healthy honey part of your daily diet.
