GOOOOAAAALLL! Score one for David Diehl, in his newest colourful and conceptual sports book for toddlers. Diehl celebrates the world's most popular game, putting a bright spotlight on a single football-related word on every page. Striking graphic designs in dazzling hues convey all the excitement of a 'goalkeeper' making a 'save'; the referee issuing a 'yellow card' to a misbehaving player; the suspense of a 'free kick'; or the home team finally getting a beautifully completed 'goal'. All of Diehl's illustrations are intensely, brilliantly active and children will love it - because it's never too soon to get ready for this electrifying game!
