Barron's "Books on the Go" are soft, fluffy animal dolls that do double duty as book covers. When opened, their cloth pages treat toddlers to amusing little stories with color illustrations. Each padded fabric front cover shows the friendly, fully dimensional head of its story's hero, along with front paws or in the Snowman's case, arms. A Velcro-tipped tail extends from the soft back cover to wrap around and keep the book closed after the story has been read. The tail can also be looped around and attached

to the edge of a car seat or baby stroller truly a " Book on the Go " that travels with Baby. A fabric carrying handle at the top is just the right size to fit a toddler's little hand. This book as here is a snowman but has actually warm and cuddly to Baby's touch.
