Some bears will go to any length to get some honey. This one recruits every animal

that comes along to form, well, a stack. The result? Tail of the duck to the gluteus maximus of the duck-billed platypus (with many other rears in between). Readers will giggle with delight at the bird's eye view of some hysterical animal bottoms. Follow this back-sided journey up the tree - where the real surprise awaits. The pairing of Black's minimal text with Hawkes's visual story line will keep you chuckling from the bottom up.
