The sensitively written "Let's Talk About It Books" encourage preschool-age and early-grades children to explore their feelings, deal with problems that trouble them, and understand others who have problems of their own. Each title speaks to a particular concern that children might encounter in the course of growing up. All books in this series have appealing color illustrations on every page, and are available in both English and Spanish language editions. A short section at the back of each book offers related advice to parents. "Mom Works Too" describes typical children's reactions to working mothers. Children often feel lonely and deprived of their mother's love and attention when mothers pursue careers and add to the family income. This book

reassures kids that Mom loves them as much as ever, and explains why it may be necessary for mothers to work outside the home.
