A simple walk in the woods becomes so much more. As Daniella and her grandfather stroll through a peaceful woodland setting, they enjoy the beautiful day and each other's company. By playing a word game as they walk, they begin to express just how much they mean to each other. The sentiment and love expressed in this story will bring back fond memories for adults and inspire children, as well. Children may want to create their own special language and bond with their extended families after listening to or reading about Daniella and her grandpa.
