One of six titles in the Little Green Book series, here you will learn how to make choices

that affect not only your own life but the planet as a whole. The Little Green Book of the Home contains 250 tips on such topics as utilities (water, electricity, etc), insulation, lighting, appliances, home entertainment, waste and home decorating. From setting up your own recycling system and reducing room pollution to making the most of your windows and why natural upholstery fabrics are best, this book is an invaluable home help.
