Overshadowed by the rising threat of the werewolf mafia, Ben and Tegan struggle to stand united. Werewolf Enforcer Tegan Warden has been alone since the death of her mate four years ago. Until she meets Ben Stoner at a local club and she feels something she thought died inside her. Things move very quickly and she finds herself mated to a human man whos not altogether sure he wants a forever kind of love with a woman hes just met. Ben realizes in short order Tegan is not only worth forever love, but a woman wholl stand at his side without tolerating anything other than a full partnership. In the bedroom its another story, as Ben has finally found a sexual submissive with a spark, and Tegan a man worthy of her submission. Together they work toward building a permanent relationship even as the specter of danger from the Pellini Group grows in the world of wolves. All around them, the rising violence threatens the Packs and the only thing they know for certain is one another.
