"I Really Like . . . Puppies" is a bright and lively new board book packed full of cute pets. The touch-and-feel elements bring the books to life and encourage little hands to participate in the fun. The die-cut holes persuade children to guess what is coming next. The final spread is for things 'I really, really, really like' and uses a gate-fold flap to conceal lots of different pets and asks the reader to pick the one they really like themselves
