Katy Keene is back! One of the most popular stars of comics is back and more popular than ever - because of you. Katy Keene, the girl who can do it all - model, singer, actress and all around star - is back with all the beauty, romance and laughs you can imagine. With stories of fashion runway treachery, making movies, recording her first album, running from paparazzi or behind-the-scenes drama at an awards show, Katy is ready for it all. Plus, in this collection there is an all new, never-before-seen story telling how Katy was thrust into the spotlight for the first time. And remember, Katy Keene always looks her best because YOU, the readers, design all her fashions!
