Ray Mears has travelled the world for much of his life learning and teaching wilderness skills. Now he reflects on his experiences in some of the most remote and beautiful places on Earth along with his own stunning photographs of the landscapes and

peoples he's encountered. Fascinated by photography from an early age, each of Ray's pictures captures an instant of life, a powerful experience he has compared to hunting - to releasing the trigger on a rifle. This book reveals our dramatically changing planet and inspires us to look more closely at the changes around us. See our vanishing world through the eyes, ears and camera lens of Ray Mears.
