This nifty reference packs a wallop of information. "Scats and Tracks of North America" covers nearly 150 of the continent's most common or characteristic species of mammals, birds, reptiles, and amphibians north of Mexico. It also includes rare species of particular interest or significance, such as the jaguarundi, the polar bear, and the wolverine. Easy to carry in pack or pocket, this user-friendly guide is at the ready for frequent consultation in the field. The informative text is accompanied by a range map for each species and hundreds of superb black-and-white sketches of scats, tracks, and each species by acclaimed naturalist-cum-illustrator Todd Telander.
