著者:Julian Fitter

出版者:Bradt Travel Guides

出版时间:2009-1

装帧:Paperback

isbn:9781841622729

Full colour throughout, New Zealand Wildlife provides a comprehensive overview of the natural history of the country's archipelago. Famous for its flightless birds such as the emblematic kiwi and the endangered takahe, it is also home to lizard-like tuataras, giant kuari trees and a rich coastal marine life. Thorough background information on geology, geography and palaeontology is coupled with extensive wildlife and habitat listings. Also included are full details on where to go, along with recommended tramping tracks.

'Bradt Travel Guides simply have the best wildlife coverage of any of the popular guide books.' BBC Wildlife

作者介绍:

Julian Fitter's interests cover natural history and conservation in New Zealand and other island groups. He spent 15 years in the Galapagos Islands and set up the Galapagos Conservation Trust as a result; he is also a key member of Falklands Conservation.
