Reeds Astro Navigation Tables is an established book of annual astro-navigation tables

compiled specifically for yachtsmen. It contains all the information the ocean-going sailor needs (without the bulk) in order to navigate by the sun, moon, planets and stars, using tables devised by practical ocean navigators. This book, together with a sextant, will enable sailors to navigate confidently and safely when out of the sight of land. 'Nothing I have seen comes near to the sensible format which I see before me' Tom Cunliffe, RYA Yachtmaster Examiner, author and sailor 'Slim, modestly priced volume with clear, easily retrievable information' Cruising 'Well tried and familiar to many experienced sailors' RYA News
