Jeffrey wants Saturn for his birthday, and he wants the moons too all 47 of them. After all, they'll make great night-lights But he's not selfish; he'll share the rings with some of his friends at school and with his teacher, Mrs. Cassini. Facts about Saturn are woven seamlessly throughout this funny story as Jeffrey explains just what he'll do with his present and how he'll take care of it. His dad better hurry with the order, though, because shipping might take a while. All Sylvan Dell titles feature free educational

resources online, including the For Creative Minds sections and additional Teaching Activities.
