With economies in peril, war in the Middle East, genocides, global warming, and a host of other grim phenomena, the world has never seemed so besieged. The solution, says Robert Sardello, lies with the individual. In this timely, thoughtful book, he explains how the soul can engage with the outer world to produce radical change. Because we think of the world as a vast mechanism and behave as mechanical objects in it, the results are devastation and dysfunction. The key is to learn to identify with the plight of the Earth by developing a true sense of individual imagination and conscious awareness of inner purpose and beauty in conjunction with the soul of the world. Sardello shows how to achieve this awareness and bring what is inside out into the world, inspiring balance and stability. Using the Grail legend and the myth of Sophia—known as the Soul of the World—as well as writings by Jung, James Hillman, and Rudolf Steiner, *Love and the Soul* helps readers imagine a revitalized Earth by exploring the significance of grieving, the transformative power of radical receptivity, the creative power of dreaming, and a new basis for community.
