College costs are continuing to rise, with a four-year private school averaging \$22,218 and a four-year public school averaging \$5,836 for the 2006-07 school year. The good news is that more than \$134 billion in financial aid is available. The Scholarship & Financial Aid Handbook will show you how to earmark some of that money for your college education, ensuring that you will be able to afford a higher education. In this book, you will learn about the different types of scholarships, including those based on academics, awards, honours, leadership, test scores, extracurricular activities, majors, community service, volunteer work, essays, financial aid, minority status, even some unusual ones. You will learn how to determine your eligibility for these scholarships, as well as how to enlist the help of your parents, how to recognise and avoid scholarship scams, how to create a resume, how to ask and who to ask for letters of recommendation, how to ace interviews with scholarship committees, and how to prepare for your interview. Additionally, you will discover where to look for scholarships, from your school to local organisations, businesses, and online. You will be provided with tips on filling out applications and tips for writing essays, as well as how to alter your essays for multiple uses. Also included are possible essay topics, sample interview questions, and information on state grants, FAFSA, and work study. This handbook is intended to be a guide for students, parents, and school personnel to assist students in finding and obtaining scholarships. The author uses her years of experience and exhaustive research to help you benefit from scholarships. Even if you do not have above average grades, participate in lots of extracurricular activities, or have an abundance of extracurricular activities, you can find money to go to college. Just read this book and apply the techniques found within.
