Namaste Publishing is pleased to announce Mister Ego and the Bubble of Love , its first book for children. In it Amber Hinton conveys a key aspect of the ego in a simplified manner appropriate for children who are pre-readers and early readers. In Mister Ego and the Bubble of Love , Nico and Leo, who are playing with blocks, get into an altercation. After the squabble is over, Leo is mad at himself because he s spoiled all the fun. How can a child who tends to get upset and cantankerous learn to stay calm when he or she doesn't get his or her way? This exquisitely illustrated children's book introduces children to an imaginary figure called Mister Ego a character who represents the part of us that so easily becomes out of sorts and ruins a good time. Drawing on the wisdom of the world around us, Mister Ego and the Bubble of Love coaches children in how to tame their difficult side so that they are able to get along with each other a whole lot better. With Mister Ego at rest in his bubble of love, the sun is out again and the house is once more a happy place for the children to play.
