This book is a guide for thriving in a world where consciousness comes first. New discoveries in the field of quantum physics are prompting researchers to view the physical world from a new perspective. This perspective, that all physical reality springs from consciousness, inspires a former California broadcast journalist and his wife, a psychotherapist, to reconsider their own nature. This awakening takes them down the path of Self-discovery where science and spirituality... the seen and the unseen... meet. Ron and Denny Reynolds share ten simple spiritual principles that have been meaningful in their lives for more than four decades. they offer Ten Tools for Self-Transformation that support their journey in the laboratory of life, where consciousness is primary.
