"With full-color illustrations, maps, and lively descriptions, Wallace, a natural science educator and illustrator, makes it easy and fun for families to explore various ecosystems." - "The Salt Lake Tribune" This next installation in the popular America's Ecosystems series explores everything from ponderosa pines of the West to the tropical rain forests of Central America. A great resource for young naturalists and their families, it includes clear, informative text and superb illustrations. Marianne D. Wallace is a natural science illustrator and writer whose work has appeared in over thirty books and publications. She lives in the foothills of Southern California.
