Developing Your Watercolours is a practical, structured course for watercolour painters with some experience -- continuing where the very successful Watercolour Landscape Course left off. With over 28,000 copies sold it is fast becoming a classic instructional guide. Fully illustrated with David Bellamy's evocative watercolours, the book follows a similar approach to Watercolour Landscape Course and is divided into four main sections: / The preparatory planning stages, with advice on choosing materials and working on location / Guidelines on how to give your paintings more impact through imaginative composition, lighting and mood / More exciting watercolour techniques / Specific projects and exhibition work Also included are a number of practical exercises, relating to paintings featured in a gallery at the end of the book, and several step-by-step demonstrations.
