isbn:9780830828241

Stephen Greggo offers an in-depth exploration of care group leadership from a Christian perspective. Care groups are worth pursuing because they can create a biblically grounded context for corrective healing relationships. Care group leaders engaged in pastoral care, counseling services or spiritual formation will catch a vision for how the core interpersonal process can be instrumental in reshaping character, redeeming relationships and realizing sanctification.

作者介绍:

Stephen P. Greggo (Psy.D., State University of New York, Albany) is professor of pastoral counseling and psychology at Trinity Evangelical Divinity School in Deerfield, Illinois. He is a licensed psychologist and partner, consultant and part-time clinician with Christian Counseling Associates in Delmar, NY. He regularly does workshops and presentations with CAPS, AACC and ETS. Greggo is also the author of a number of academic and journal articles.
