Rather than return home after World War II, former sergeant Freddie T. Birch revives his ventriloquist act and begins touring Europe as "The Great Freddie." But Freddie's act--and his life--take a radical turn when he is possessed by the ghost of Avrom Amos, a twelve-year-old Jewish boy killed by the Nazis. Soon the two forge an unlikely partnership, improving Freddie's act while bringing Avrom ever closer to tracking down the man who murdered him.
