Becker Drane's still got the coolest job in The World, but being a Fixer while trying to live a normal, 13-year-old life isn't easy. On the way to a family vacation, a bomb explodes in the Department of Time. When Becker is called in to repair the damage, he discovers a path of destruction the likes of which he's never seen. Becker's going to need help to repair the damage The Tide has created. NARRATED by Oliver Wyman
