AK The Adventures of Agape Kid takes place one night with the nineyearold AK (Arthur Keith) who is afraid of everything. Fearstruck and hold up in his bedroom, AK encounters the main antagonist, The General, who brings a bevy of, usually invisible, characters with him to scare AK to pieces. The characters are amazingly colorful and humorous. AK's discernment opens up; he begins to see The General's cohorts, then AK recognizes the plan against him. The boy immediately prays the only prayer that he knows, and then gets supernatural help to become victorious over Fear. The Word becomes alive (literally) and AK overcomes Fear by love, power and a sound mind.
